

Loudspeaker Project
Two Boxes Required

Jerry Seigel
303-690-9058

Constructed from 1" wood veneered MDF.

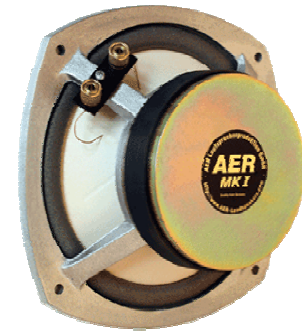

Note 1: Front vertical edges, top front edge, and top side edges (not back edge) will have 1/2" quarter round insets.

 ← Irregularly placed braces to minimize cabinet vibration.

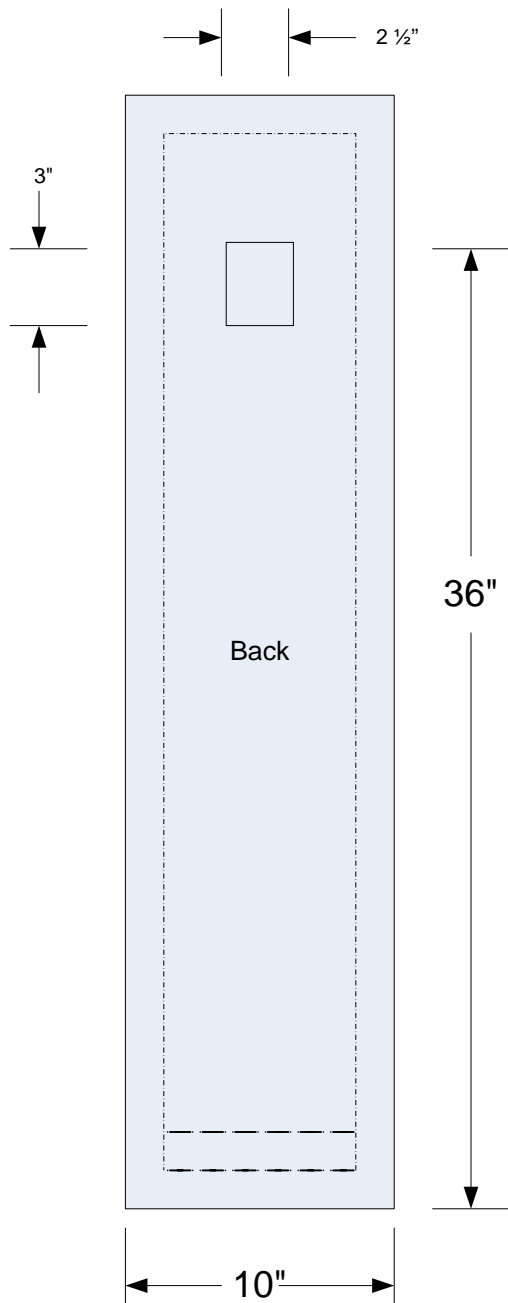

7"D hole in front will be routed for flush mounting of loudspeaker driver. Images below. Exposed MDF painted black.

Front

Rear

Detail of hole for electrical connection:
Rectangle is 2 1/2" wide & 3" tall.
Exposed MDF painted black.
